

Cut & Order

Cut out the six pictures. Put them in order to grow a flower, then glue them into the boxes 1 to 6.

Cut

Cut along the dashed lines ✂

Glue

Glue the pictures in order: 1 happens first, 6 happens last

Ray says: Ask what has to happen first. You cannot water a seed before it is in the pot!

For grown-ups: lay all six out before any gluing and let them tell the story aloud; the order is the point, the gluing is the reward. Ask “what would happen if we skipped watering?” **Order:** 1 > D (dig) · 2 > B (seed) · 3 > E (cover) · 4 > A (water) · 5 > F (sprout) · 6 > C (flower)
